PN SSC IT Branch - Rawalpindi Center - Test Experience | Alhamdulillah Cleared!

Intelligence: Cleared

Alhamdulillah, I cleared the **Intelligence section**! Here's a breakdown of what to expect:

- The **Intelligence section** wasn't particularly easy for me. No questions about **age, ratios, or directions**.
- Instead, the questions focused on topics like:
 - **Profit, averages**, and calculating **total bills**.
 - **Odd-man-out, series**, and **analogies** were included.
 - Overall, I felt the **Non-verbal** section wasn't that difficult either.

Academic: Very Challenging

The **Academic section** was **quite tough**, with a lot of focus on core concepts in **Networking, Programming, and Cloud Computing**:

- **Subnetting**: Practice on **ExamVeda's website** helped me understand subnetting concepts better.
- **Database Systems (DBS)**: Concepts are essential, but don't expect just simple queries—make sure you have a strong grip on **concepts** and **DDL** logic.
- **PHP**: Questions related to **superglobals** and basic PHP concepts.
- **C++**: Questions about **C++ development** and **conditions**—remember, C++ was developed by **Bjarne Stroustrup**.
- **Cloud Computing**: Be prepared for questions on **cloud services** like **AWS, Azure, and ASP.NET**.
- **Software Engineering**: There were a few questions on the **simplest model** and **user feedback**.
- **ARP and RARP** were also covered.
- **OSI Model**: Know the layers well!

Interview Preparation

My **interview** is on **Monday**, and I'm feeling prepared! The key is to thoroughly revise **all subjects**, practice **online MCQs**, and make sure you understand the concepts, not just memorize them.

Final Thoughts

- **Subjects**: Focus on understanding the core **concepts** rather than just attempting MCQs.

"These Past Papers are Collected by Sir Muhammad Faizan (Ex-Airforce Personnel) at
EduSmart Academy. If you want to take paid classes for Army, Navy, and PAF courses, contact 03066892208."

- **MCQs Practice:** Doing only MCQs might cause problems, so mix it up with theory and practical knowledge.

Good luck to all those preparing for the test—may you all succeed! And please, keep me in your prayers for my upcoming interview.

Thank you to everyone in this group for all the help and support!
