

AFNS TEST EXPERIENCE – 27 AUGUST 2026

EduSmart
The Best Coaching Academy

Assalam o Alaikum everyone. Today, **27-08-2026**, I appeared in my AFNS test. Unfortunately, I could not pass the test, but I am sharing my experience and the questions I remember so that upcoming candidates can benefit from it.

Honestly, the **Verbal and Non-Verbal Intelligence portions were easy**. The main thing was speed and understanding the pattern quickly. Verbal had a lot of **series, logic, alphabet, day/date, distance-time and general reasoning questions**.

Some questions I remember were:

- **Bat can't see and snake can't _____?**
- **A plane prism has how many sides?**
- If the letters of **"MANAGEMENT"** are arranged alphabetically, which letter will come **3rd**?
- Which letter comes immediately after **M**?
- Complete the series: **A2, C4, E6, ____**
- **What does a photodiode convert?**
- If the **25th day of a month is Sunday**, what day will the **2nd day** of that month be?
- If **yesterday was Monday**, what day will be the **day after tomorrow**?
- A man walks **20 km in 1 hour 40 minutes**. How much time will he take to walk **1 km**?
- A helicopter requires **50 gallons for 320 km**. How many gallons will it approximately require for **700 km**?

There were also questions from **number/alphabet series, analogies, odd one out, coding-decoding and basic mathematical reasoning**.

Non-Verbal Intelligence

Non-verbal was also manageable. Questions mostly involved:

- Figure series
- Missing figures
- Rotation
- Clockwise/anticlockwise movement
- Shading changes

- Odd figure
- Figure matrices

A few figures were confusing, but overall this portion was much easier than academics.

Academic Portion

For me, **academics were the difficult part**. The questions were more conceptual and some options were very close, so simple memorization was not enough.

Physics-related concepts such as **photodiode, capacitance, electricity and basic formulas** appeared. Biology/genetics was also tested through questions like **X-chromosome inheritance**.

My biggest advice to candidates is: **don't focus only on intelligence preparation**. Verbal and non-verbal may feel easy after practice, but academics can decide your final result.

Revise **Physics, Chemistry, Biology and English** properly, especially conceptual MCQs, formulas, units and FSc-level basics.

Unfortunately, I could not clear my test today, but Alhamdulillah it was still a learning experience. ❤️

Best of luck to all **AFNS aspirants**. Prepare well, manage your time and don't lose confidence if one portion feels difficult.

Test Date: 27 August 2026

Status: Not Passed ❌

May Allah give everyone success. Ameen.
