

AFNS TEST EXPERIENCE-4

Assalam o Alaikum everyone. Aaj ka **AFNS test experience** share kar rahi hun taake upcoming girls ko real idea mil jaye ke center par kya hota hai aur test kis type ka hota hai.

Mera test **7:00 am** tha aur main around **6:30 am** center pohanch gayi thi. Start mein ek Army officer ne proper guide kiya ke **documents verification ka process** kaise hoga.

Documents bohat carefully check hue. Kuch girls complete documents na hone ki wajah se **computer lab tak nahi ja sakin**. Specially jinke paas required **Hope Certificate** nahi tha unko issue hua. Is liye please apne saare original documents pehle hi complete karke le kar jana.

Verification mein kaafi time lag gaya, around **1 to 1.5 hour**, uske baad humein computer lab mein le gaye. Lab aur computers bilkul fine thay, overall arrangement acha tha.

Verbal Intelligence

Agar basic practice ki ho to verbal clear karna mushkil nahi.

Questions mostly ye type ke thay:

- Percentage
- Analogies
- Counting vowels
- Odd one out
- Blood relations
- Basic maths
- Distance/time
- Coding
- Common sense

Some questions:

- **20 km in 1 hour, then in 80 minutes how much distance?**
- **My brother's sister is your mother. What is my relation to you?**
- Percentage based question
- Analogy type question
- Vowels count karne wala question
- Odd one out

Verbal itna manageable tha ke kuch students ke **10–15 minutes bhi bach gaye**.

Non-Verbal Intelligence

Non-verbal bhi honestly easy side par tha.

Questions mostly:

- Figure series
- Rotation
- Clockwise / anticlockwise
- Missing figure
- Arrow patterns
- Water image
- Classification
- Matrix

Achi baat ye thi ke jo questions skip kiye, wo end mein dobara aa gaye.

So intelligence ke liye over-stress karne ki zarurat nahi, but practice zaroor honi chahiye.

Academic Portion

Academic honestly kaafi tough tha, especially **Physics and Chemistry**.

Questions tricky thay aur options confusing thay. Biology comparatively easy thi aur quantity bhi kam thi.

Physics

Physics ka portion tough tha aur concepts par based tha.

Some remembered / similar questions:

- **Unit of resistivity?**
Answer: **Ohm-meter**
- **Ohm's Law is:**
 $V = IR$
- **Capacitance ka unit kya hai?**
Farad
- **If resistance increases while voltage remains constant, what happens to current?**
Current decreases
- Capacitor related question

- Electricity and resistance based MCQs

Chemistry

Chemistry ke **bohat zyada** MCQs thay, especially **Organic Chemistry** se.

Topics included:

- Organic chemistry
- Acids
- Chemical reactions
- Periodic table
- Oxidation
- Enzymes / biochemical chemistry

Some questions:

- **Which is the strongest acid?**
- **Cytochrome oxidase belongs to which enzyme class?**
- Organic compounds identify karne wale questions
- Reaction based questions
- Functional groups

Chemistry ka portion easy nahi tha; concepts clear hone chahiye.

Biology

Biology surprisingly **easy** **thi** aur questions bhi kam thay.

Topics:

- Cell
- Mitochondria
- Cardiac output
- Male reproductive system 🧑🏻🧑🏻
- Human body

Some questions:

- **Mitochondria is known as what?**
- **Approximately how much cardiac output goes to kidneys?**
- **Male reproductive system se ek MCQ**
- Cell related basic question

Biology ka level Physics/Chemistry ke muqablay mein kaafi manageable tha.

English

English ka portion moderate tha.

Questions from:

- Prepositions
- Synonyms
- Antonyms
- Grammar
- Sentence correction

Example:

- **He is devoted ___ his work.**
- Correct preposition select karna
- Synonym / antonym
- Grammar usage

Overall Feel

Agar intelligence ki basic practice ho to clear ho jata hai, but academics mein especially:

Physics + Chemistry ko seriously prepare karo.

Biology easy aa sakti hai but sirf Bio par depend mat rehna.

One more important thing: **Medical har center par same day zaroori nahi hota.** Kuch candidates ka same day hua aur kuch ka later date par schedule hua.

So final advice:

Documents complete le kar jana, center early reach karna, intelligence ki timed practice karna, aur academics mein specially **Physics electricity/capacitors/Ohm's law + Organic Chemistry + English grammar** strong rakhna.

Best of luck to all AFNS aspirants 🤝 ❤️
Allah sab ko kamyabi de. Ameen.
